

## Annex 1 to the [Data Processing Agreement](#)

Details of data processing - SOLAR.WEB QUERY API

### 1. Subject of the data processing

The subject matter of data processing by Fronius in the context of the use of our product SOLAR.WEB QUERY API and on behalf of the customer as Controller within the meaning of the GDPR is described in the respective Product Description and in the Terms of Use of SOLAR WEB QUERY API.

### 2. Duration of data processing

The duration of the data processing is based on the requirements in the main Contract or corresponds to its term.

### 3. Nature and purpose of the processing

Fronius processes personal data as a processor to provide the client with the software and services in accordance with documented instructions from the client within the scope of the product functionalities and in accordance with the terms of use.

This includes the processing and management of:

- PV system data, device information and system performance data

for the purpose of using our product and service.

When using SOLAR.WEB QUERY API, Fronius will carry out the following processing operations on behalf of the Client:

- Preparation, provision of the above data via a programming interface.

For more information on this software and our services, please see the [Product Description](#).

To the extent that Fronius processes personal data of the Client outside the scope of this Data Processing Agreement (DPA), you will find the information on data protection in our [data privacy statement](#) and, if applicable, in our [special data privacy information](#).

### 4. Nature of the personal data

In the course of using SOLAR.WEB QUERY API, the following categories of personal data are processed by Fronius as processor:

- PV system data (address of PV-System, further Solar.web user information)
- Performance data (PV generation, grid feed-in, electricity consumption, tariff information)

### 5. Categories of affected persons

The following categories of persons are concerned by the processing:

- The Client and, where applicable, the Client's users, insofar as their personal data are processed in accordance with Clause 4.
